suppers, and as matters
low he is going to have them. He
not concerned with the past so much
as the future. These remarks may
indicate any administration
have gone before, but to make a
man of Mr. Taft. The president
In spite of the fact that Mr. Taft
retaining in his Cabinet two of
the most conservative members of
friendly relations with the outgoing
president, is making Mr. Loeb
and Mr. Clegg, who are not
are of a number of other close friends
Mr. Roosevelt, there are plenty
of things which may never come
pass. I do not look upon such
things as the coming of the
worthy prophets, but simply as in
worthy gossamers. For illustration,
the coming of the words of
a group of Senators who were
talking about Mr. Taft. This Sen
ment, made the somewhat at

Washington Post, pronounced Roosevelt's departure from the White House as "a relief," and he added that within two years the president would be a man who is now leaving the White House and the man who is ready to take his place. "I don't want to go on to predict, one of the great privileges of my position," he said, "but I think it is very likely that Mr. Taft will be as successful as Mr. Roosevelt as rivals for the Presidency." "I don't think," he added, "All of which is important, if it may come to pass, but the prudent course is to wait before giving credence to such rumors."

TAFTS WILL ENTER WHITE HOUSE TODAY

ASSOCIATED PRESS NEWS REPORTS: WASHINGTON, March 2.—As president-elect and Mrs. Roosevelt and Mr. and Mrs. Taft will arrive in the White House tomorrow night, going there by train, and remaining overnight.

WASHINGTON, there will be a reunion of the various members of the Taft family at the White House.

Miss Della Torrey, 82 years old, of the Milbury, Mass., the only representative of the family of the last generation, is her own father's sister, and her father's mother, and has lived with her father's since his boyhood. There is no strong affection between the Income Tax collector and his mother, but the latter has been an inspiration to him; his early young speeches he has delivered to his young students, partly, and he has been married to the latter's daughter, the only object to which he has been attached.

Mr. Taft has the only child of the Iowa character developed by a merciful, unmarried woman, and she has said that there may be much to his single life.

stated readily his opponent, Governor Lawrence R. Edwards, and remained confident that he would be able to get away for a return tomorrow.

Returning from the course in his automobile, Mr. Taft was somewhat disappointed to learn that the Oregon delegation in Congress had decided to go to the Federal judgeship. After dinner today Mr. Taft came to the residence of Thomas F. Wynn, who is entertaining a large party.

NINE DIE IN FIRE

NEW YORK, March 3.—At nine persons met death early this morning in a fire which swept through a crowded four-story building at No. 375 Seventh avenue near Thirty-second street. Nine bodies had been recovered this morning, and it is expected the death toll will grow. Several children are missing. The fire started in the basement.

leapt rapidly up the stairway, and, turning off the escape of the terrified, stricken tenants, many of whom tried to jump from the windows.

Police men and fire men made several spectacular rescues while a crowd of onlookers surrounded the burning building, cheering their efforts.

Among the dead are a man, a woman and two children, but as there was great confusion around the scene of the fire and a number of the bod-

care for the injured. Chief Croker personally directed the firemen.

One dollar buys a complete

FOR SALE—

**COME IN AND TALK OVER
THE ADVANTAGES
OF LIVING IN THE GREAT
WEALTH PRODUCING GREENWOOD**

We will convince you that if you want to
live on the most productive lands in the State
the country for that matter, Fresno county
is the place for you to go. Lots of big photo-
graphs in color showing the beauty of the
country and the valuable information. Come in and
sit down and talk it over and you will know
you will want to go and look.

**TWO FINE COUNTRY TRACTS,
BOYS IN GREENWOOD**

**ONE IS FOR EARLY CHANGERS
THE OTHER FOR THE LATE COMERS.
GRAPES AND OTHER FRUITS.**

If we live in Fresno county, and have some vines growing in our back yard or orchard, it is better to get them sold by merchant in the county who will furnish us a letter to the county lands office, than if you want to buy San Joaquin Valley grapes, which are the best quality made anywhere where the best land is used, and you can do so upon receiving a square deal in our opinion.

**A BIG LIST
OF VINEYARDS, ORCHARDS,
AND OTHER IMPROVED LANDS,
ALL AT CLOWE FIGURES.**

**LARGE TRACTS FOR COLONIZATION,
RURALITY LANDS.**

GOOD RIDDANCE.
**RED PLOTTERS
LEAVE TODAY.**

Mexican Revolutionists Go
Under Heavy Guard.

Trio to Start for Arizona on
Morning Train.

Appealed to Highest Court
to Avoid Trip.

Under a heavy guard Ricardo Flores Magon, Antonio Villareal and Librado Rivera, Mexican revolutionists, will be taken from the County Jail this morning and placed on a Southern Pacific train, bound for Tucson, Ariz. There they will be turned over to the United States officers of the Southern Arizona district, and will probably be taken to Tombstone for trial on charges of violating the neutrality law.

Deputy United States Marshal Fred Durin, with Thomas Quinn, Jack Adams, John Brossmer and Jack Johnson, will have charge of the prisoners, with plenty of officers along the route. They will be handcuffed and will be put in carriages and taken to Arcadia Station in time to catch the train which leaves at 8:40 o'clock.

The officers do not expect to have any trouble in the transportation of the reds, but a close watch will be kept and a force of patrolmen will be on duty at the station to prevent any outbreak on the part of friends and sympathizers of the dangerous men who conspired against the government of Mexico.

CAPTURED LONG AGO.

Magon, Villareal and Rivera have been in custody here for eighteen months. During that time they have resorted to every technicality possible to have the charges against them dismissed. It was finally decided by the United States Supreme Court that they must go to Arizona to face trial, the complaint against them alleging that the violation of the neutrality law was committed in the Territory.

The men were captured on August 22, 1907, after a desperate fight by local and St. Louis detectives who located the revolutionists in a small shack on Pico street. They had established headquarters there after having been chased about the country, and most of their literature was published in Los Angeles.

After watching the place several days the officers decided on the capture. Detectives Talamantes and Went in through the rear door, while the St. Louis men entered from the front. The local officers were attacked by the three reds, who used knives, chairs and bottles as weapons. They were beaten into submission and handcuffed. They fought and screamed until a great crowd had collected about the house, and still struggling, they were thrown in carriages and tied to the seats with heavy ropes. Being powerful men they nearly turned the carriage over in its dash to the Central Police Station. While they yelled that they were kidnapped, and that they were representatives of liberty.

At the station there was another struggle, in which several officers were slightly bruised before the hysterical revolutionists were finally put in cells.

STIRS ALL THE REDS.

Their arrest aroused a storm of indignation among the Socialists, anarchists and fanatics who favor their creed of destruction. Letters urging the assassination of the Presidents of the United States and Mexico were found in their possession. Other letters showing that they had been instrumental in causing the various small outbreaks in Mexico of two years ago were found. They were charged with incendiarism, and ranted for blood.

The Mexican government asked that the trio be sent across the border to face criminal charges. These charges were examined, but it was found that they did not warrant extradition.

The United States then took up the case and the prisoners were charged with violating the neutrality act, they operated from Tombstone, Ariz., and apparently planned a revolution by which they hoped to overthrow the Mexican government.

LOCAL CRICKETERS HONORED.

C. P. Hurditch, Late Captain of the All-Southern California Team to Play in England.

C. P. Hurditch, late captain of the All-Southern California Cricket eleven, has just been asked to play for Middlesex county in the opening match of the season against Kent. C. P. Warner, captain of the Middlesex county eleven, conferred this great honor upon Hurditch and Southern California cricketers on the strength of his wonderful form in carrying off the batting honors of the Los Angeles Cricket Club last year.

H. Justice of Santa Monica, who is now in England, is also engaged to play in some first-class matches. The Los Angeles county eleven, represented in the old country.

H. Wilfred Walker, the old Notts amateur and one of the best cricketers seen in Southern California, has recently purchased a large cocoa estate on the island of Trinidad.

He has been asked to represent All-West Indies against the visiting team from Philadelphia, which is touring England and met with such success against the several counties.

In a letter to The Times Hurditch remarks that the All-England eleven is anxiously awaiting the arrival of the Australians. The latter are particularly strong in batting this year, but a trifle weak in bowling, otherwise they are a warm lot and will give the Britishers all they want.

County League Games.

The baseball team of Polytechnic High School is to play Orange High tomorrow afternoon at Orange. The Orange team is said to be strong, and the local boys are getting into the best condition possible. Saturday afternoon Polytechnic meets Whittier High at Whittier in the regular County League schedule.

LEAKS OUT.
**SECRET ENGAGEMENT
IN LENTEN SHACKLES.**

Miss Eleanor Holland, whose romance was too good to keep until the formal-announcement season.

CUPID may try to look solemn in Lent, but he winks the other eye. Love acknowledges no barriers, and society in vain imposes formalities to the seats with heavy ropes. By rule o' thumb. This accounts for the present announcement of the engagement of Miss Eleanor Holland, daughter of Mr. and Mrs. Millard F. Holland, No. 729 South Coronado street, to William Bosbyshell, son of a well-known family and the youngest automobile dealer in the city.

In every possible way both families have endeavored to keep secret the engagement until the end of this month at least, and possibly until the close of Lent. The young people have planned for a formal announcement of their engagement at a brilliant social function, to take place within a month.

Neither Mr. Bosbyshell nor Miss Holland would discuss the engagement yesterday, or talk of their plans, but they did not deny that they are engaged, and that the formal announcement will come later.

Miss Holland is a beautiful and charming girl, about 20 years of age, talented and a favorite wherever known. She has many admirers.

Mr. Bosbyshell is a popular young man who is making a place for himself in business circles.

wording of the new bill is interpreted to mean that the pilot can collect these fees or half both for getting in and out of the harbor. It was stated that there is no objection to paying the pilot who goes outside the harbor and waits for a vessel, even if he is not hired, but it is not satisfactory if he can collect for simply offering his services to a boat lying in the port with no trouble or risk to himself.

Negotiations are being pushed to get the Canadian-Mexican steamers from Vancouver to Guaymas, Mazatlan and Mexican Pacific ports to call at San Pedro. The matter of port charges is one of the principal things inquired about.

DEATH TAKES NATIVE SON.

Man Born in Los Angeles and Connected With One of Old Spanish Families Succumbs.

Nathaniel Pryor, a native of California, who was connected by marriage with one of the old Spanish families of the city, died yesterday morning at his residence, No. 1613 Pleasant avenue, Boyle Heights. He was 53.

The funeral services will be held at the family residence at 2 o'clock tomorrow afternoon, followed by mass at St. Mary's Roman Catholic Church. Burial will be in Calvary Cemetery.

Mr. Pryor was born in this city, and at one time owned a large amount of property along Alameda street, where that section was one of the main business districts of the city. He also acquired large holdings at San Luis Capistrano.

His widow is the daughter of José Mascarell, Mayor of the city in 1880, and she owns much property in her own right. The children are Mrs. Nathalie Pryor, Mrs. Juan Capistrano, Mrs. Rosita Cuen, Mrs. Claudia Eads, Mrs. Josie Myers, James Pryor, Elizabeth Pryor, Virginia Pryor and Lottie Pryor, all of this city, and F. Romero, a stepson.

ANGELS CALL.
**LIGHT LEAVES
BRIGHT EYES.**

Noted Beauty Dies in Hospital in This City.

Wife of Goldfield Millionaire Sinks in Last Sleep.

Husband Is Pioneer of the Nevada El Dorado.

Mrs. Ruth Galloway Davis, one of the famous beauties of the West, and the nine months' bride of James R. Davis, miner and mining man of Goldfield, Nev., died yesterday at the California Hospital, following an operation which was a last resort in the hope of saving the young woman's life.

Mrs. Davis came to Los Angeles about two weeks ago with her husband and mother, Mrs. B. S. Galloway, to spend several months in this city and other Southern California winter resorts. The party made headquarters at the Alexandria Hotel.

When they arrived here Mrs. Davis was in perfect health, and immediately set out upon a round of pleasures. The evening before her departure from Goldfield she had been a guest at an elaborate function given in farewell to her, and during the week had entertained at the three receptions for her Goldfield friends.

DIES FROM SHOCK.

Four days ago she was suddenly taken ill and was removed to the California Hospital. Her condition grew worse so rapidly that Dr. R. Smith, the attending physician, summoned a conference of doctors and an operation was decided on. Mrs. Davis never recovered from the shock and died at noon.

No funeral arrangements will be made until the arrival today from Goldfield of Mrs. Davis's father, Dr. B. S. Galloway, who is an old practitioner of the Nevada mining town.

Before Mrs. Davis had caused a sensation in Goldfield and Los Angeles because of her wonderful beauty, she had gained much fame in Denver and Leadville, Colo., where she was a leader in society. She came to Goldfield from the latter city.

Only 34 years old she had dozens of suitors in the Nevada city and Los Angeles, but none was shown favor until she met Mr. Davis here early last June, during a visit to this city.

WINS FAMED BEAUTY.

It was a mutual infatuation. The wooing of Davis was on the whirlwind order and on June 19 the couple were married at the Alexandria Hotel.

Soon after the wedding and as soon as Mrs. Davis could arrange his business affairs the young couple left for Europe on their honeymoon and devoted six months to touring the continent, most of the journey being made about the green's great touring car. About every point of interest in Europe was visited and the young couple had only returned a few weeks ago to this country.

GOLDFIELD PIONEER.

Mr. Davis is one of the wealthiest men in Nevada and is rated among the millions. He has been a resident of Goldfield several years and was one of the first investors who believed in Goldfield's future. Being one of the first on the ground, he secured three of the richest mines near the camp, which have netted him a vast fortune. He has also large investments in paying securities.

Mr. Davis never entered into politics, but devoted his time entirely to business. He is well known in Los Angeles, being a frequent visitor here.

FOOTPADS TAKE CHANCES.

Risk Prison for Three Dollars, Holding up Two Men on Boyle Heights.

George W. Dehay and J. A. Nolan of No. 1728 La Balle avenue, were held up and robbed by two highwaymen about 8 o'clock last night at East Third street and Boyle avenue, the former losing \$1 and the latter \$2 and watch.

The meager description which the victims could give of the footpads leads the police to believe they are the same men who perpetrated several hold-ups in the Boyle Heights district in the last few weeks. As on former occasions one of the footpads covered them with a revolver, while the other searched their pockets.

TWO ESCAPE DEATH.

Struck by Electric Cars They Sustain Only Slight Injuries and Go Home.

E. H. Lee of No. 745 West Seventeenth street, in alighting from a Washington street car at Seventh and Figueroa streets, early last evening, stepped directly in front of a car bound in the opposite direction, being pitched to the side of the pavement and receiving severe bruises about the body.

Occupants of a passing automobile took the injured man to his home.

While crossing Moneta avenue at Forty-first street, about 8 o'clock last evening, John Moody of No. 2834 Denver street, was struck by a slowly moving Moneta car, sustaining slight bruises about the body. He was treated at the Receiving Hospital.

FORMER CANADIANS GATHER.

The entertainment given by the Canadian Club in Lincoln Hall, Walker theater building, last night, was successful beyond the expectations of the officers who arranged it. About 400 former residents of Canada were there. Rev. E. L. Rowe was the chairman, and addresses were made by Dr. James H. McLaren of Riverside, and Rev. Dr. E. B. Hickman of Toronto, educational secretary of the Methodist Church of Canada. Both extolled the virtues and achievements of the Canadian-born in the United States and particularly Southern California. A sketch entitled "The Secretary and the Cook" was given by Rev. Black as the secretary, and Chet Withey as the cook. Dancing followed the formal programme. The club is planning a theater party at the Walker for Tuesday evening, the 16th inst.

POST-CARD VOTE.

Business Men's Organization Seeking to Get an Expression from Each Voter.

The Business Men's Organization, Herbert L. Cornish, secretary, has decided to take a post-card vote, and is sending return post cards (numbered and registered to avoid mistakes) to every voter in the city. The organization mailed 20,000 cards yesterday. Each recipient is asked to mark his cross in square and return the card. Following is a facsimile of the vote section:

ARTHUR C. HARPER.

GEORGE ALEXANDER.

The appeal to voters is as follows: The Business Men's Organization vigorously opposes the recall movement at this time, and in that connection desires to ascertain as early as possible the address of every voter in sympathy with its attitude. This is necessary in order to obtain concerted action against the movement on election day and to insure a full vote from our supporters. It is important that you place a cross after "The Times" and the word "Business Men's Organization" on the card unless you so desire.

"Please do it now, and don't forget to vote on election day."

"BUSINESS MEN'S ORGANIZATION," "HERBERT L. CORNISH, Sec."

The recallers are sending out similar cards. It will be interesting to note how the returns vary. Ha-ha!

It will be remembered that in the last Mayoralty campaign the Express started a post-card vote. It proved a rotten fraud, so shamelessly exposed by The Times and the Republican managers by means of an overdoes of votes that the Express didn't use and didn't count. The Express was outstuffed, and has never got over it.

SETTLES IT.

PLACER LOCATOR

WINS DECISION.

INTERIOR DEPARTMENT RULES ON MATTER AFFECTING OIL.

Finally Passes on the Case of George F. Wheeler Against the State of California—Question as to Tracts Mineral in Character is Discussed by Assistant Secretary.

Of interest to prospectors for oil on government land is the final decision of the Interior Department in the case of George F. Wheeler against the State of California. The original finding of the Los Angeles Land Office officials is upheld.

Wheeler filed what is known as a protest in the Land Office against the indemnity selection of land near Bakersfield by the State, on the ground that the land was mineral in character and claimed by him under placer mining locations. Gen. Prescott at the time of the hearing found that the tract was mineral in character, and that the protest should be sustained.

The State appealed to the Commissioner. That official sustained Gen. Prescott's decision as to part of the land, but reversed it as to another part. The State then brought the entire matter before the Interior Department for review.

Frank Pierce, first assistant Secretary of the Interior, gives the following conclusions: "As is pertinently remarked by the Los Angeles officers, the early rulings cited by the State were very strict against the mineral claimant."

"Mineral must be shown by way of quantities before patent is issued. Even in the case of precious metals this rule might be very harsh in some cases. But in boring for oil it would put even a prudent oil man in such jeopardy as to make no development impossible."

"Vicissitudes may interfere as to this case, possibly just within touch of oil. Yet any piece of land, well may come forth with oil and the thereby-bought chance from the well-bored hole. It is a matter of reasonable diligence, and it would seem such a well once begun with priority of appropriation should be protected as long as it is appropriated in good faith and its depth is not beyond practical oil mining."

This opinion of the local engineers quoted at length by the Assistant Secretary to show the grounds for upholding the decision. It would appear that the government is disposed to afford every protection to bona-fide oil men after mineral wealth on government lands.

DON'T SLAME MOTORMAN.

Result of Inquest in Case of Mrs. Martin Nelson, Killed by Electric Car at El Monte.

The motorman of the Corvair of the Pacific Electric that killed Mrs. Martin Nelson at El Monte Sunday afternoon is held blameless. An inquest was held yesterday with this result:

In the case of H. B. Hampton, who was crushed to death beneath the wheels of a Salt Lake train Sunday night, the jury returned a verdict in which it was stated that Hampton committed suicide by placing himself on the track.

MILLION FOR STAMPS.

The sale of stamps at the Los Angeles postoffice for last month almost reached the \$100,000 mark. During the present year the sales will aggregate more than \$1,000,000, an enormous sum when one considers the slight cost of each stamp. For February the sales were \$98,283.13, a gain of \$780.19 over the corresponding month of 1908.

Partly because of its shifting crowd of tourists, 445,921 pieces of mail reached the postoffice last month, which were either misdirected or had insufficient addresses. Correct addresses were found for nearly 30,000 pieces, and the rest was consigned to the general delivery department to await call.

SCHOOL GAME TODAY.

The baseball team of the Lincoln grammar school of Hollywood and the D. S. C. Club are to play this afternoon on the Lincoln diamond. The battery for the grammar school is to be the Williams and the pitcher for the D. S. C. Club, Crutchman and Hoka.

GIRLS PLAY FRIDAY.

The girls' basketball teams of Los Angeles High and Polytechnic High Schools are to play Friday afternoon at 3 o'clock on the Polytechnic court. Both teams have been practicing hard for the game and a struggle is expected.

THE RECALL.

recall, the danger of it, which it gives to the minority of the voters can be by petition of the recall. The public satisfaction to 75 per cent. of the people to satisfy the essence of justice to the incumbent of an office which may not appear to the public as a community everything, but to such well-meaning citizens the instrument desired by the power, the political rival or the nables him by energetic action, even with the object that he upon, for the securing of even if it were for the purpose of commandments, requires only to the task. As for the such a specimen of "recall" the end be the principal reason will refuse to accept place, who are ready to demonstrate a public official has no right to large need respect.—(Glendale)

Linsner et al. knew that when they could not handle him, and that finally they would leave only candidates of George Alexander. There with Earl, Gibson and Linsner to get closer to the Owens about their identity becoming in. all the hills handed to the point, Mr. Voter. is wise to deliver the city of keeping of Edwin T. Linsner, when in the opportunity of selection choice?—(The Record)

ROSCOPE.

March 3, 1909.
COSMETTE.

of what the day may yield, but destructive sign of Leucy is in Cancer and in the benefic aspect. King Edward, as cast in Los Angeles, there are evil as the herosques of the British hours care in dealings. In signing important in any kind, and in constructing would guard their possessions. The real estate are under and impetuous disposition is favored bravely, taking has carried too far by enter affairs can give good counsel. The sign over jewels, gold and those connected with soil should find this perils. In social station or in business is today will profit by this day under signs before. They should be studied and true bent. Girls may be Boys may need self-reliance.

Settler Remarks:
out the "seventh commandment" me up it. "Prayer is the true BALT hear false her." That's it, they tell anything ag'in him and he get him with scandal and Mr. min and give it out. me, boys. They say that's a duty Pays.

MUSIC AND THE STAGE.

Music lovers who did not visit Simpson's Auditorium last evening missed a great artistic opportunity, for those who saw the familiar, dusky old walls of the first piano performance have been given in this city in many years.

Joseph Lhevinne is a splendid artist, a pianist of his infinite thorax. Such completion of tone, genuinely intellectual effects, crystalline shading, such as perfectly perfect modulations of such scholarly and yet deeply emotional conceptions, are rare indeed in the modern concert platform.

Lhevinne attacking a heavy or dramatic passage is veritably a growing bear. His fingers fall like hammer, and the resultant sound is in positive jump-bristling form. He attacks that pile and pile before, and his imagination into a mass of sound. Though these sounds are really not in order, it is merely Lhevinne's rugged, artistic attack, which after all is for something strong in its very intensity.

Most of all his audience, as like him in more delicate things like the Mozart Pastorale, which was third on his program. Here his rapidity of tone was absolutely spiritual. I never saw such wonderful contrast as this, and it was Chopin's Op. 10, No. 3, a rare lesson to any student, no matter how advanced. For delicate, artistic beauty of lyric interpretation, Lhevinne stands alone.

Lhevinne's biggest number was Schumann's "Caravan," but here the appeal was not so personal. This composition, varied and taxing as it is, is more virtuosic. It is a series of character changes, and while the mechanics of Lhevinne came well to the fore, his interpretative personality was felt, at least—went somewhat to the background.

He gave three Chopin pieces, the G major, the Op. 84, the B minor, Op. 25, study, the last of these was the Nocturne, No. 3, in E-flat major. The audience heard in his performance, but realize that it was a nocturne, and not a study. The pianist, in a phrase and tone coloring the product of a genuine master.

His first encore was demanded, and he gave it. He had so many will not repeat them. After the "Blue Danube" arrangement, which concluded his programme, he audience burst into a tumult of applause. One woman, standing up in her place, tore a great bouquet of violets from her corsage and hurled them to the pianist. The pianist smiled and stooped to pick them up. He was compelled to respond to three encores before the gathering would disperse.

In manner Lhevinne has not the affectation, playing without summary gesture or physical violence. He does not even consider it to be to please the efforts with great hanging chords. Paderewski finds so unfavorable.

Definite announcements have been made regarding the successor of Frank Oakley at the Belasco, though actual rumors have been rife.

The Camot Club, at its monthly meeting, tonight, will have a host of guests, among them being Josef Lhevinne, pianist; Gertrude Sanna, composer and vocalist; David Harrison, baritone; Mrs. Carrie Jackson, soprano; George Broad, playwright; Annie Keller-Wil, Wagnerian interpreter; Dalhouse, pianist; Ignaz Haraldi, violinist; and Rudolf Friml, pianist.

Mr. Hoff Seely yesterday engaged William Desmond for a short time in San Francisco, after Mr. Desmond's release from the Burbank jail, October.

Little Lattie left last evening for San Francisco. He will bring back some people for the Auditorium company.

A little bit off the top, in the case of Hartman's stock revival of "Elmer," would not be so well as a bit off the bottom, for it is the ending and not the conclusion of the play, which is dreadfully dull. It is in fact, difficult to conceive a more artificial first act. The proceeds on wooden legs. Hartman is superbly vigorous in his in fact, calls forth sympathy in laughter, for upon the old type and artifices of comic, and indeed a wonder how they are by—he is supposed to make a sophisticated modern audience that he could pull a cork out of there is entirely due to him.

at the conclusion of this act, the plot proceeds to up and lose some of its clamor. Don Medigus confronting his in the guise of the terrible, and ordering that secreted and gagged that he may reveal him to the laundress in a way in itself, and thence the grows more real, so that the of the piece is a matter of and spirit.

The loss falls on an overstocked jobber. Thirty dozen of them came to us at practically half.

2 1-2-yard veils of washable chiffon, in plain and crepe finish, with striped borders and hemstitched ends; black, white and all the correct colors . . . \$2

(Center Aisle, near Broadway Entrance.)

\$1.75 to \$3.50 \$1.25 Suitings

Yesterday's spirited selling reduced the quantity alarmingly, but the VARIETY left for today's early shoppers is all anyone could wish.

54 to 58-inch Scotch and English Suitings in indistinct stripes, checks and plaids, and smart mixtures.

All new. All unmatched values at today's price—\$1.25 a yard.

All of the Butterick Patterns for March are in. Fashion Sheets free.

Subscriptions taken for the Delineator—\$1 a year. (Main Floor, Hill Street End.)

Bon Ton Corsets

The Secret of the Perfect Form

The mark of fashion is hard to define, but it is unmistakably apparent in all wearers of BON TON corsets. Many a smart figure has its beautiful lines distorted through incorrect corseting. This need not be if you do your figure justice by wearing one of the

BON TON CORSETS

The woman cultured in dress artistry at once recognizes in every detail of these charming models, some definite purpose, all purposes uniting to mould the figure into graceful becoming lines. BON TONS are invariably acknowledged to be the ultra-fashionable high grade corsets of the moment.

Models for Every Figure

And all fitted by expert corsetieres, not novices. \$3.50 to \$12.00.

MINES AND MINING

BORAX MILL TO GET STARTED.

One Hundred-ton Mill at Otis Completed.

English Company Will Save Shipping East.

Mexican Zinc Men Win Case and Market.

The Borax Properties Company (limited) of London, with offices in this city, has completed its 100-ton mill at Otis, on the Santa Fe, and will start the mill within a few days. It expects to be crushing ore within the next few weeks.

The company will use the evaporation process in the manufacture of borax. The ore is first crushed, then run into shallow vats and evaporated by the sun. Evaporation is at the rate of one-half inch per day.

The company owns a number of mines in the vicinity of Otis, from which it can secure a practically unlimited amount of ore containing from 10 to 20 per cent. of boric acid, which it will extract. These properties have only been considerably developed in the past few years.

The Pacific Coast borax people have been sending their ore, which contained from 50 to 60 per cent. boric acid, to Bayonne, N. J., where it was taken out by an expensive procedure. The London corporation will save all of this expense by the mill it has just completed which is said to be one of the most modern in existence. It will crush 100 tons daily and when the mines are opened plenty of ore is in sight to run at full capacity.

Mexican Zinc Tariff.
The United States Court of Appeals has decided in favor of the importer of Mexican zinc that their ore should come in free of duty and there is a general reopening of the old coal-burning smelters in Kansas that were closed years ago. They will run exclusively on Mexican zinc. The plants are much less economical than the new gas burners and they make only one grade of commercial product and do not save the sulphur as acid.

Within three weeks the Joplin market has fallen from a high base price of \$2 to one of \$1.50 in the early part of February. The Missourians are placing their hopes on a silver strike. A contract has just been made for 5000 tons of Mexican zinc from the Los Lamentos mines of Bert Peterson, fifty miles east of Villa Ahumada, station on the Mexican Central Railroad, about half-way between Chihuahua and El Paso. This zinc will be shipped to Kansas. The same property has been contracted to furnish the same amount of lead-silver ore for the Tabor smelter just purchased by the Coleman syndicate.

Declares Dividends.
The Goldfield Consolidated has just paid out what is asserted to be the largest regular dividend ever declared by a mining company, and distributed \$1,000,000 among the shareholders. The new mine is treating 800 tons of ore daily, according to the report of President Nixon, at an average cost of \$4. This means \$3,200,000 per annum.

Bullion shipments are continuing steadily and it is said three shipments a week will be made from now on. No ore has been taken from the mines since 400 feet, excepting a trace of exploration, and over \$15,000,000 has been returned. From the surface to the lowest depth there are great blocks of good ore and much territory remains to be developed.

President Nixon estimates the yield from the surface to the 400-foot level in the future to be as great as that in the past. From this level the yield is expected to be as great as that in the past. From this level the yield is expected to be as great as that in the past.

In High Grade.
The Consolidated Red Top Lease has opened four feet of \$200 ore in the new stop above the 300-foot level. The grade of ore has gradually improved for the week or more. The shipments ran about \$110 but the recent bodies opened will swell this considerably. The strike in south of the other rich find and values apparently increasing in that direction.

Will Build Mill.
The St. Ives Leasing Company is to build a mill this summer on the East Walker River. Plans for the mill and power plant will be approved shortly and construction start. Three hundred horse power will be developed and the mill installed on the unit system, forty being put up at first. The surface cropping shows well and a large force will be put to work to develop the ledges.

For Mexican Exhibit.
Secretary Nolan of the Chamber of Mines has written to Messrs. De la Pava of this city who are interested in Mexican affairs, asking if they can aid the chamber in negotiations with the Mexican government for an exhibit of minerals of the republic for the display which the chamber proposes to establish here.

The directors of the chamber yesterday named J. Nelson Nevius, E. M. chairman of the Executive Committee, with authority to choose two colleagues.

AEROPLANE FOR ENGLISH RACE.
American Machine to Be Sent Over to Compete in Crossing Channel.

ASSOCIATE PRESS DAY REPORT.
NEW YORK, March 2.—Glenn R. Curtiss, the airplane expert of Hammondsport, N. Y., has arrived in New York, and announces that an American airplane will be sent to England in May to try for one of the two prizes offered for a successful flight across the English Channel.

The craft will be in charge of J. A. D. McCurdy and F. W. Baldwin, members of the Aerial Experiment Association, who have recently been working with Dr. Alexander Graham Bell at Baddeck, N. S.

The airplane is to be entered will be modeled after the plan of the Silver Dart, a machine which has been used very successfully by the association.

FOR INDIGESTION.
Take Hoffer's Acid Phosphate. Especially recommended for the relief of indigestion and nervous dyspepsia.

Ladies' \$15 Hats for \$5.
At National Sample Hat Shop, 217 S. Broadway, second floor. Elevator.

GRAY-AND-GOLD ELECTRIC FUNERAL CAR IN USE.

The first of the new funeral cars, the Paraiso, designed and built in this city by the Los Angeles Railway, has been placed in service. It is new on the Coast, the Paraiso being the first of the kind, according to Master Mechanic Stevens, its designer. The coach is thirty-four feet long, outside finish in pearl gray and gold, with stained glass windows. The interior is mahogany, and the upholstery in soft green. Willow chairs for twenty persons are cushioned in green, and a folding willow seat can be placed in the center aisle to accommodate ten more passengers. It is heavily carpeted. The electric bulbs are frosted, producing a soft light. The receptacle for the casket is at the end, with doors opening from the side and rollers and every late appliance for handling. The interior is arranged so that curtains can be used to divide the coach into several private compartments. The work was all done in the main shops at South Park. Another car, on the same lines but larger, is now under construction, and will be completed about July 1.

WIFE'S DUTY TO BEAR CHILDREN

Ohio Supreme Court Grants Husband Divorce Because She Set Limit at Ten.

(BY DIRECT WIRE TO THE TIMES.)
COLUMBUS (O.) March 2.—[Exclusive Dispatch.] By decision of the Ohio Supreme Court this evening, affirming the judgment of the Hamilton County Circuit Court, the divorce decree granted Prof. George W. Burns, a teacher in a Cincinnati public school, from Carrie O. Burns, is affirmed.

They had ten children, and the husband brought suit for divorce because of the refusal of the wife to discharge her conjugal duties. The decision of the highest tribunal is that this refusal on her part to have more children in obedience to the often expressed desire of the husband, in sufficient grounds for legal separation. And it is the first time on record the highest tribunal in Ohio has ever gone on record in such manner.

MAYOR LOSES OFFICE.
Absent Without Leave City Trustees Depose Him and Elect Successor.

(ASSOCIATED PRESS NIGHT REPORT.)
KANSAS CITY (Mo.) March 2.—Mayor John C. Harbeck was officially deposed by the City Council last night, and Alderman B. Jones elected to fill the vacancy. The Mayor had been absent from office beyond the statutory limit, without leave of absence. He is in Helena, representing Flathead county in the lower house of the Legislature.

BAD FIRE IN HONDURAS.
Business Block in San Pedro Destroyed, Including Californians' Big Store.

(BY DIRECT WIRE TO THE TIMES.)
NEW ORLEANS (La.) March 2.—[Exclusive Dispatch.] Passengers arriving here from Honduras report that the completely destroyed one whole business block in San Pedro on February 21. Several business houses were destroyed, including two saloons and two newspaper plants, but the greatest loss of all was the large general merchandise establishment of C. Schultz of California, an American citizen. The place was completely wiped out.

Mr. Schultz started there about one year ago, and had been remarkably successful. The fire made a clean sweep of the block, and the total loss will be many thousands of dollars. Schultz had some insurance, but not much.

This is the second disastrous conflagration from which San Pedro has suffered within the past three months. The large drug establishment of Dr. F. M. Mitchell, the American Consular Agent, narrowly escaped both fires.

DENY SUGAR-WEIGHT FRAUDS.
Officers of Refining Companies Testify in Suit—Profit on Pound One-fourth Cent.

(ASSOCIATED PRESS NIGHT REPORT.)
NEW YORK, March 2.—Testimony given today by officers of the American Sugar Refining Company of New York, the corporation on trial for alleged false weighing of sugar imports, and of the American Sugar Refining Company of New Jersey, the parent corporation, virtually concluded the presentation of evidence for the defense.

All of the witnesses denied knowing of any fraudulent weighing devices in the company's possession. Secretary Helk testified that the average profit to the company on the sale of a pound of sugar was one-eighth to one-quarter cent.

Washington B. Thomas, president of the American Sugar Refining Company of New Jersey, and several of the directors of the company, including Horace Havemeyer, son of its late president, Henry O. Havemeyer, were other witnesses.

American Week

\$30 SPRING SUITS

Just Fifty Women's Garments in This Special Purchase

That means come early—if you'd share in this wonderful bargain opportunity. You never saw such high-class garments at \$30—and here they are tomorrow at \$18.75. Approved spring models of finest serges, fancy panamas and worsteds. Handsome linings and best tailoring. Colorings now most in vogue. But why this special price, do you ask? Another Hamburger handling of a peculiar trade condition. The maker was hard pushed—sold at a sacrifice for spot cash—and you reap the benefit. It's your chance to get that spring suit at very near half. Go on sale at the opening of the store, remember.

Elegant \$6 Leather Hand Bags \$4

We bought the entire output of a prominent maker. Spot cash—low prices. Here's your chance. Swell 10-inch carriage bags of genuine seal leather. Popular size. New, exclusive shape. Leather lined. Color varies to match.

That Secret

Phew! It's just as easy. Why, anybody can keep a secret if they try. All you have to do is just—well, just keep it. My, I'd love to tell you what it is. I know you'd like to know, too. But I can't tell just yet. I've just got to win that easy. I may give you a little hint of it tomorrow. Watch my career.

Yours sincerely,
THE ARROW GIRL.

After a long and vain search for her daughter, victim of a notorious blizzard, John N. Hood will today leave Los Angeles for San Francisco.

Arthur F. Curson, cousin of the late John N. Hood, is expected to arrive in Los Angeles today.

Francisco was the scene of a heart-breaking automobile party held up by a snow storm.

Former Gov. Crittenden of Missouri, a member of the House of Representatives, is expected to arrive in Los Angeles today.
